She went on like that, whispering about creatures half-serpent and half-human, with bodies cold to the touch, limbs that could writhe in boneless contortion to squeeze the breath from a man and crush him fike the coils of a giant constrictor. She spoke of forked tongues, of voices hissing forth from mouths yawning incredibly wide on movable jawbones. And she might have gone on, but Nolan stopped her now; his head was throbbing with weariness.. "Yes," he grinned, "Come on in." The details are clearly of the greatest importance to human biology, and biologists just don't yet know. Amos and Jack were happy as they had ever been, and the North Wind roared to the edge of the ledge and they climbed on his back, one on each shoulder. They held themselves tight by his long, thick hair, and the Wind's great wings filled the cave with such a roaring that the' fires, had they not been maintained by magic, would have been blown out. The sound of the great wing feathers clashing against one another was like steel against bronze.. Detweiler stepped toward it, ignoring me, tears pouring down his face. The thing's struggles grew. There had been a brief lifting of spirits among Song, Ralston, and McKillian at the thought of a possible rescue. The more they thought about it, the less happy they looked.
