After a few seconds of silence Iay conceded, "Okay, I can see how it might be a good way of getting rid of the odd freak here and there. But what do you do when a whole bunch of them get together?" As Leon spoke, Colman looked curiously at Kath to see if he could detect any reaction, but she remained impassive..empty hand and lift a named number of cards off a deck eight times out of ten. Swyley had been his guinea pig, for he had discovered that if Swyley couldn't spot a false move, nobody could, and in the years since, he had perfected his technique to the degree that Swyley now owed him \$1,343,859.20, including interest..Just over four square miles but irregular in outline, Phoenix included most of Canaveral City with its central district and military barracks, the surrounding residential complexes such as Cordova Village that housed primarily Terrans, and a selection of industrial, commercial, and public facilities chosen to form the nucleus of a self sufficient community. In addition an area of ten square miles of mainly open land on the side away from Franklin was designated for future annexation and development. Transit rights through Phoenix were guaranteed for Chironians using the maglev between Franklin and the Mandel Peninsula, in return for which Phoenix claimed a right-of-way corridor to the shuttle base, which would be shared as a joint resource..At one time, she'd been proud of her beauty. Now she wondered why she had taken so much pride in.Kath nodded. "Wally and Sam. It was only briefly, because I had to get back to Farnhill and your other people, but from what they said it seems as if you know quite a bit about MHD. Where did you study?" .away. I'm never going to forget the way he looked." The girl's voice grew softer but also more.Leilani looked toward the kitchen window but seemed to be gazing at something far away in time and at."I never lost myself." "We've only seen Franklin," Pernak replied. If you really want to know about Preston Claudius Maddoc,"Regular comm channels are all down, to the ship everywhere. They have been for over an hour," Stanislaw said. "Emergency channels are restricted to priority military traffic." Colman threw the blankets aside, swung his legs out, and began pulling on his pants. "Strange things happening everywhere," Stanislaw told him, handing him his boots. "Lots of SDs arriving at the shuttle base, squads out inside Phoenix arresting people, most of Company B has taken off.. I don't know what it's all about."..Veronica had to bite her lip .to suppress the beginnings of a giggle,. "A Chironian."..anger, Micky realized that only silence and retreat made sense. Now that the words had been said, the tension released itself in a ripple of murmurs accompanied by the rustle of papers, and the creaks of chain as bodies unfolded into easier postures.."Neither have I. But the idea appeals to me. And so right after he married Sinsemilla, he said that even.The long bar lay to the right of the door. And as the backcloth fell and the strings fell with it, the dolls were dancing on. The dolls were dancing without the strings because there were no strings. There had never been any, except those which the dolls had allowed the puppeteers to fasten to their minds. But those strings had held up the puppeteers, not the dolls, for the puppeteers were falling while the dolls danced on..On all sides of Curtis, remote-released locks electronically disengage with sharp double-beep signals,..lunatic charm."..either. "You're probably just like my dad..jammed in the bottleneck at the restaurant's front door, not in danger of trampling one another like.Colman nodded. "Gone to the storeroom with Hanlon and Lechat. Everything was quiet upstairs when we left".Some people present hadn't been there five years before but had arrived with the EAF starship, and others with the European mission that had reached Alpha Centauri a year later. They had called themselves Chinese, Indians, Japanese, and Indonesians then, or Russian, German, French, Spaniard, Italian. . . but now they were all simply Chironians. They too had come to see that the old society could never have transformed itself into a culture that was appropriate to high technology, limitless resources, and universal abundance; it had inherited too much that was self-destructive from its past. The new society, could only have risen in the way that it had..isolated by light-years of space and by its unique beginnings from the mechanisms that had perpetuated the creeds of hatred, prejudice, greed, intimidation, domination,

and unreason from generation to generation..Lechat waited for the noise to die away and managed to bring his feelings under control sufficiently to muster a semblance of dignity appropriate to the moment But simplicity and brevity were appropriate too. "I am honored and privileged by this appointment, and I will dedicate myself for the duration of my term to serving the best interests of our people to the best of my ability," he announced, "in accordance with that promise, my first official act is to restore the full powers of Congress as previously ~suspended, and my second is to declare the state of emergency ended as of this moment," Another round of applause, this time briefer than before, greeted the statement. "Next, I have two proposals to put to the vote of the assembly," Lechat said. "But before I do so, I feel that the Supreme Military Commander of the Mission might wish to speak." He sat down, looked along the dais toward Borftein, and motioned with his hand an invitation for the general to take it from there..entirely to down-to-earth stuff like TV wrestling, video games, dinosaurs, and serial-flushing public."That's a gamble we'll have to take," Sirocco said. "Bret, this is Veronica. Never mind why, but she's going to need help getting out of the shuttle base later tonight. What do you think?" the hour. Yet they are still becoming what they eventually will be to each other, not yet entirely.Music began playing, the crowd dispersed back to the bar and tables, and conversations started to pick up again. Colman and his companions went back upstairs, and Driscoll collected another round of drinks from the bar while the others sat where they had been earlier. They talked for a while about the incident, agreed it was a bad thing to have happened, wondered what would come of it, and eventually changed the subject.. "When I wasn't scared anymore. When I was big enough and angry enough to make it stop." Micky's.That didn't explain anything. Jay couldn't see it either. "Yes, it would be-nice if everyone in the world were reasonable and rational about everything all the time. But they can't be, can they? Chironians have the same mix of genes as everyone else. There can't be anything radically different." Well, it's not difficult to see who the next target would be, is it."In the yard next door, beyond the sagging picket fence, a white-robed figure thrashed in the gloaming, as.watched from any window. Beyond the open back door lay a deserted kitchen dimly revealed by the."Stay off the streets and keep out of sight," Fulmire said. "Sterm and Stormbel have pulled a coup. They've got the SDs and at least some of the regular units-I'm not sure how many. They're arresting all the members of Congress up here, and squads are out at this moment to round up the rest. I'm probably on the list too, so this will have to be quick. They're taking over the Communications Center, and they've made a deal with Slessor to leave him and his crew alone if he sticks to worrying about the safety of the ship. Get out of Phoenix if you can. Sirocco's voice trailed away, and his mouth hung open as he stared disbelievingly toward the door at the back of the room. The heads turned one by one, and as they did so, gasps and mutterings, punctuated by a few good-natured jeers, began breaking out on all sides. /two words carried a heavier load than any of the freight trains that Micky had imagined escaping on.Leilani didn't actually make sense of those words, and she was saved only because she met her mother's."He wasn't dead then," Geneva assured the girl. Pale face. Eyes."Hmmm . . ." The reply didn't seem quite what Merrick hoped for. 'Not quite everything, surely," he said. "What about the shooting of Corporal Wilson a week ago?" "My grandfather stayed alive in the Lean Years by ripping off Fed warehouses and selling the stuff. He could bomb any security routine ever dreamed up. My dad got a job with the Emergency Welfare Office, and between them they wrote two sisters and a brother that I never had into the system and collected the benefits. So life wasn't too bad." He shrugged, almost apologetically. "I guess it got to be kind of a tradition... sort of handed down in the family." "I've got one too," Veronica whispered, bringing her face."That's true," Bernard agreed. "But the

risk of Stern trying anything with those weapons has to be greater if he thinks he can blackmail a defenseless planet, If he knew what he was up against-you don't have to give him every detail-it might be enough to persuade him to give it up. That's all we're asking. For the sake of those people up there, you owe it to spell out a warning, clearly and unambiguously."inspection.."Hey, you. Stop." The major in command of the four SD troopers sent to scout out the center of Canaveral City --a residential and commercial suburb situated outside the base and merging into one side of Franklin--addressed the Chironian whom they had followed from the restaurant a few yards back around the corner. He was well-dressed, in his midthirties, and carrying an attaché case. The Chironian ignored them and kept walking. Whereupon the major marched ahead to plant himself firmly in the man's path. The Chironian walked round him and eventually halted when the troopers formed themselves into an impassable barrier on three sides. And none of it was going to change--ever. Chiron wasn't going to be the way out that Colman had hoped for when he volunteered at nineteen. So he had stopped playing poker, but not before his name had been linked catalytically with enough arguments and brawls to get him transferred to D Company. As he stared fixedly at the wall across the corridor, the thought occurred to him that in a place with so many kids around, there ought to be a big demand for a conjuror. The more he thought about it, the more appealing the idea became. But to do something about it, he would first have to figure out-some way of working an escape trick---out of the Army.
