Well, part of it is more than a theory. The combination of the Martian polar inclination, the precessional cycle, and the eccentricity of the orbit produces seasons that are about twelve thousand years long. We're in the middle of winter, though we landed in the nominal 'summer/ It's been theorized that if there were any Martian life it would have adapted to these longer cycles. It hibernates in spores during the cold cycle, when the water and carbon dioxide freeze out at the poles, then comes out when enough ice melts to permit biological processes. She stood waiting for the hunter to come. Her eyes and ears strained for the signs of his approach. There were none.. teeth chattered.. Her face took on the intent, yet mesmerized look of a quiz show contestant "Ask, ask." A faint orange glow outlined the top of a craggy boulder, and they hurried toward it over the crumbly ledge. When they climbed the rock, they saw that the light came from behind another wall of stone further away, and they scrambled toward it, pebbles and bits of ice rolling under their hands. Behind the wall they saw that the light was even stronger above another ridge, and they did their best to climb it without falling who-knows-how-many hundreds of feet to the foot of the mountain. At last they pulled themselves onto the ledge and leaned against the side, panting. Far ahead of them, orange flames flickered brightly and there was light on each face. For all the cold wind their faces were still shiny with the sweat of the effort.. that will be both precise and compact. If vivid be added thereunto, fine? what else is good style? Hence. And seems to be made of plastic, into the bargain. Any ideas why it picked this particular spot to grow, and no other?" Crawford shrugged, uneasy at the question. He didn't know if it was the right time to even postulate. Crawford did, and began to see the novelty of it. He tried hi vain to think of some mechanism hi an animal or plant of Earthly origin that turned and kept on turning forever. He could not. "But we're -not going to lose."
