"I See You" is the first new Damon Knight story in many year; it was the feature story in FASFs special Damon Knight issue (November 1976). As might be expected, it is a totally fresh piece of work and it shines with quality. At the station, waiting for the train to come in, she sat up and began pushing at her hair.."Elaborate," Barry suggested..How Swyley did what only he did so well was something nobody was quite sure of, least of all Swyley himself. Whatever the reason, Swyley's ability to pick out significant details from a hopeless mess of background garbage and to distinguish consistently between valid information and decoys was justly famed and uncanny. But since Swyley himself didn't understand how he did it, he was unable to explain it to the systems programmers, who had hoped to duplicate his feats with their image-analysis programs. That had been when the "-sits" and the "-zoologists" began their endless batteries of fruitless tests. Eventually Swyley made up plausible-sounding explanations for the benefit of the specialists, but these were exposed when the programs written to their specifications failed to work. Then Swyley began claiming that his mysterious gift had suddenly deserted him completely..Barry's chair just sat there, glued to the spot, while they nattered knowledgeably on.
