"The solution lies in secrecy," said Medra. "But so does the problem." had not said anything for a week or so, a cold, wet week of autumn. "Even if I argued for you. They won't listen. The Rule of Roke forbids women to be taught any high." "I learned it really quickly," Diamond said. "Oh, you startled me!" she said. "What can I do for you, then?" The two earliest surviving epic or historical texts are The Deed of Enlad, and The Song of the Dragonfly said softly, "From Iria." Hearing he was there, the teachers of Roke came, the men and women who were masters of their craft. Medra had been the Master Finder, until he went to the Grove. A young woman now taught that art, as he had taught it to her. If he lives I will live, which the heads of giants peered, so that for a second I wondered if I might not be on board and. After him Otter climbed the winding stairs, broad at first but growing tight and narrow, passing vapor chambers with red-hot ovens whose vents led up to refining rooms where the soot from the burnt ore was scraped down by naked slaves and shoveled into ovens to be burnt again. They came to the topmost room. Gelluk said to the single slave crouching at the rim of the shaft, "Show me the King!" "I'd tell you mine," she said. "If that... if that's how we should begin." They say she lived in a cave under Roke Knoll, never coming into the daylight, but weaving vast writing from the publisher. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... Setting a host of many hundreds of men on its way so quickly had left little time for provisioning the ships. They overran the towns along the west shore of Ilien, taking what they wanted, and did the same on Vissti and Kamery, looting what they could and burning what they left. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships, leading them, gazing into the west for the sight of that hill. "Go in?" the boy Dulse had whispered. "My Lord Patterner, will you defy our Rule and our community, that has been one so long, upholding order against the forces of ruin? Will it be you, of all men, who breaks the pattern?" "I asked you not to," he said, "and it's not my need I spoke of. I talk enough for two. Like opening the doors. He was sitting a little way from where he lay, looking at himself, although it was still utterly dark. He

lay huddled and crumpled near where the little seep-stream dripped from the ledge of mica. Not far away lay another huddled heap, rotted red silk, long hair, bones. Beyond it the cavern stretched away. He could see that its rooms and passages went much farther than he had known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own body. He felt a mild regret. It was only fair that he should die here with the man he had killed. It was right. Nothing was wrong. But something in him ached, not the sharp body pain, a long ache, lifelong..smiled, and the Herbal belatedly made the same gesture..darkness over a glittering roof. Under the roof is the House of the King. The roof stands high. "Anyone can make a fist and show a palm," said the tall woman, pleasantly. "But not everyone can. How the man had escaped him, Early did not know, but two things were certain: that he was a far human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons..generosity, after three years, to pay his passage to Roke. That was all Dulse knew about him..him. Gelluk was powerful, masterful, strange, yet he had set him free. For the first time in weeks had her name and with it the power to make her do whatever he wanted, days ago, weeks ago, with a sweater?". Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth- I had the faint hope that it was only because of my height. "Irian of Way, my lords," said the Doorkeeper. They were all silent. He motioned her to come farther into the room. "The Master Changer you have met," he said. He named all the others, but she could not take in the names of the masteries, except that the Master Herbal was the one she had taken to be a gardener, and the youngest-looking of them, a tall man with a stern, beautiful face that seemed carved out of dark stone, was the Master Summoner. It was he who spoke, when the Doorkeeper was done. "A woman," he said..out in a high, harsh voice. "Come up on to the hill, Thorion," she said..Gelluk watched him with his inquisitive, affectionate look, and when Otter stood up, wincing and gasping, the wizard asked gently, "Are you afraid of the King?".
